CARE HOME INTRO

The food and drink provided within care homes is often a big deciding factor when it comes to choosing a home for loved ones.

Whether you're welcoming visitors, keeping staff energised or giving residents a cosy, warming drink, we have a solution to suit your needs.

cafitesse

...IN THE CARE SPACE

Douwe Egberts Cafitesse is dedicated to offering a complete coffee solution for the care industry, delivering premium coffee products tailored to your specific needs. Our promise to care homes is straightforward: 'We handle the coffee, so you can focus on your residents.' Whether you need to serve fast-paced coffee at speed, or are looking to provide choice at the touch of a button, Douwe Egberts Cafitesse has the perfect solution.

CHANNEL CHALLENGES:

- To deliver consistent coffee to residents/patients within care/health facilities to enable staff to spend time caring rather than cleaning/maintaining coffee machines.
- Ease of use and minimal time spent on delivering a cup of coffee.

BENEFITS OF CAFITESSE:

- Provides essential hydration.
- Milky coffees are a great source of calories.
- Comforting treats to look forward to.
- Supports positive wellbeing with 'a coffee break' often being a social time to catch up with other residents or their carer.

EASY MAINTENANCE

- Easy refilling with simple frozen packs
- Less refilling with packs that serve up to 100 cappuccinos
- Minimal maintenance required

HYGIENE

- Closed-in system
- No cross-contamination
- No milk-clogged pipes

TIME SAVING

- Serve up to 600 cups per hour
- Fill a 1l pot in only 14 seconds
- Serve an Americano in only 7 seconds
- No grounds means no need for emptying

MINIMUM CLEANING TIME

Cafitesse machines offer a design for easy cleaning and maintenance.

- Simple and fast cleaning from 2 minutes once a week
- A mandatory short-cleaning program for ease of use
- Digital displays show when maintenance is due

SERVICE/DOWNTIME

Cafitesse machines are unbelievably reliable and robust

- Our Cafitesse machines average less than 1 call-out per year
- Most issues can be simply dealt with over the phone due to the simplicity of our machines

TRAINING

Easy to learn

- Minimal employee training is required
- Less staff downtime for training
- Infographic instructions mean there's no language barrier

CAFITESSE RANGE

Excellence Touch

Great tasting coffee in seconds. Fresh look. More to experience.

Douwe Egberts Cafitesse Excellence Touch offers a wide variety of coffee, from classic cappuccinos and espressos to lattes. This user-friendly machine can dispense a black coffee in 7 seconds and a cappuccino in 14 seconds, with a high capacity of up to 600 cups per hour. With an intuitive touchscreen, easy refill system, and a simple cleaning operation (only 6 minutes twice weekly), it is ideal for all coffee needs.

Cafitesse Hot 'n' Cold

A full coffee shop experience at the touch of a button.

Cold drinks have never tasted so good, offering fast variety almost any way you want it. Douwe Egberts Cafitesse now offers cold coffee along with their great tasting hot coffee. Your customers can even adjust the strength and milk to their preferred taste at the touch of a button.

Excellence Compact Touch

Great tasting coffee, compact format.

Douwe Egberts Cafitesse Compact Touch is user-friendly and designed for customers to easily enjoy a wide variety of coffee options, from an espresso, Americano to a hot chocolate – conveniently designed in a compact format. Dispensing up to 80 cups per hour* and with an intuitive touchscreen, easy refill and cleaning (only 6 minutes twice weekly). For regular users, the Cafitesse Compact Touch offers the ability to adjust strength and milk to your preferred coffee taste.

Quantum 110

Perfect fit for all high-volume capacity black coffee needs.

The Douwe Egberts Cafitesse Quantum 110 delivers high volumes of black coffee – only 4 seconds dispense per cup and just 14 seconds per 1l pot. Delivering a consistently great tasting coffee every time. Selections for both pots and cups are available in this easy-to-use, easy-to-refill and easy-to-clean machine that takes just 2 minutes to clean each week.

SUSTAINABILITY

SOURCING FOR BETTER

We champion regenerative agriculture to enhance livelihoods and positively impact our planet. We go beyond certification:

Current score: 82/100

Full focus on products sourced under our responsible sourcing approach.

Contribute to farmers prosperity through concrete improvement projects at origin.

Our goal is to only purchase **100% sustainably grown coffee beans by 2025.**

AND WHAT ABOUT THE TRANSPORTATION OF THE COFFEE?

The transportation of Cafitesse is **4 times more efficient** than that of traditional coffee beans.

Our **vacuum-sealed bag-in-a-box packaging** reduces the need for excessive transport vehicles and **maximises space efficiency**.

Additionally, our Cafitesse coffee concentrate is up to 9 times stronger than regular espresso, allowing you to **make coffee with just 1 pack**. You would need 4 packs of beans to make the same amount of coffee that only 1 pack of Cafitesse would make!

MINIMISING FOOTPRINT

We strive towards planet-positive supply chains with reduced carbon footprint, using innovation and collaboration.

We will also build capacity to make farming more environmentally viable. We use sustainable craftsmanship:

- ☪ Roasting beans to perfection on renewable energy
- ☪ Maximising taste using all aromas from coffee beans in optimised Cafitesse brewing process

As a result, all energy consumed in the process is **100% green energy**.

We save up to 2,600 tonnes of CO₂ per year, equivalent to 1,300 round trips between Paris and New York!
